

there's nothing **cool** in being **cold**

- No fixing tools required
- Reusable zip ties
- Easy to attach and remove

AeroBlade Fitting Instructions

1. Place adhesive rubber strip on handlebars near stem to prevent rotation of the AeroBlade
2. Place the AeroBlade as close to the stem as required
3. If lights need to be attached to bars move further outwards from the stem
4. Ensure brake/gear cables enter the lugs if required
5. Use reusable zip tie as indicated on inner aspect of the AeroBlade
6. Use reusable zip tie on outer aspect of AeroBlade to secure the shield in desired position

- Allows for thermal protective zone on the 'tops' behind the AeroBlade (zone A)
- Allows for riding on the 'hoods' with easy access to the brakes/shifters (zone B)
- Allows for aggressive riding in the 'drops' (zone C)
- Have a warm and pleasurable ride!
