

there's nothing **cool** in being **cold**

- *No fixing tools required*
- *Reusable zip ties*
- *Easy to attach and remove*

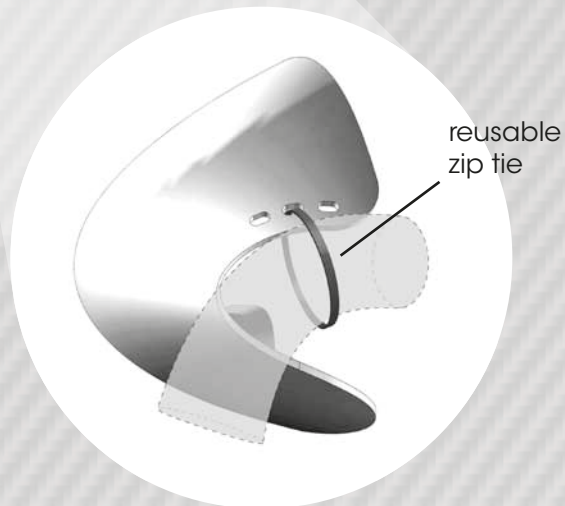

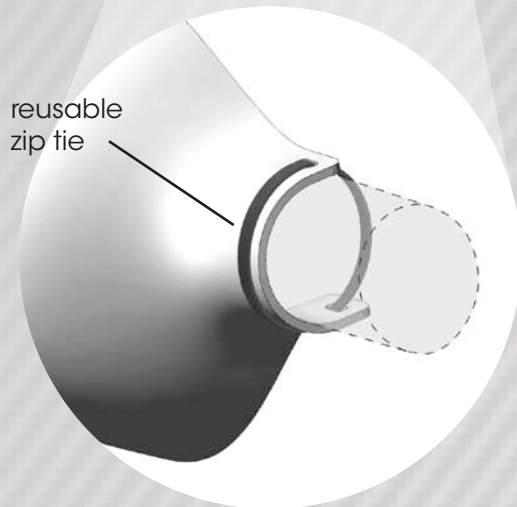

## AeroCurve Fitting Instructions

1. Place the AeroCurve across the curved section of the bars allowing for lights/computer to be attached next to the stem
2. Use reusable zip tie as indicated on inner aspect of the AeroCurve
3. Use reusable zip tie on outer aspect of AeroCurve to secure the shield in desired position

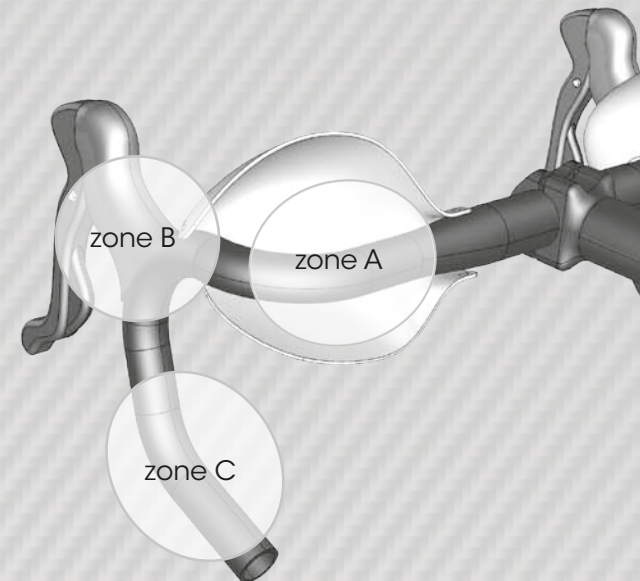

inner aspect

outer aspect

- Allows for thermal protective zone on the 'curves' behind the AeroCurve (zone A)
- Allows for riding on the 'hoods' with easy access to the brakes/shifters (zone B)
- Allows for aggressive riding in the 'drops' (zone C)
- Have a warm and pleasurable ride!
